

6barg Micro Ultra High Purity Nitrogen Generator Production Unit 300ml/min

Our Product Introduction

for more products please visit us on nitrogengeneratorsystem.com

Basic Information

- Place of Origin: CHINA
- Brand Name: GASPU
- Certification: CE
- Model Number: GPN
- Minimum Order Quantity: 1pcs
- Price: Negotiate
- Packaging Details: Carton
- Delivery Time: 15work days
- Payment Terms: T/T
- Supply Ability: 30pcs/month

Product Specification

- Name: Micro Nitrogen Generator
- Capacity: 300ml/min
- Purity: 99.99%
- Size: 400*350*350
- Work Pressure: 4-6barg
- Power: 220V 50Hz 0.6kw
- Weight: 18kg
- Package: Carton Packaging
- Highlight: **Micro ultra high purity nitrogen generator ,
6barg ultra high purity nitrogen generator ,
6barg nitrogen production unit**

Product Description

Micro GPN-300 nitrogen generator

The GPN series nitrogen generator is a device provided by our company's gas source department to blow and carry gas for instruments such as gas chromatographs, Fourier transform infrared spectroscopy (FT-IR) total organic carbon analyzers (TOC), nuclear magnetic resonance (NMR), and thermal analyzers.

Product features:

1. Can replace high-pressure steel cylinders, dual cathode stainless steel electrolytic separation cell, electrolytic nitrogen production, start-up gas production, flexible and convenient
2. Low maintenance cost, only need to add pure water for continuous use during normal use
3. Unique anti backflow device ensures that the instrument has no backflow phenomenon and achieves better purification with third level purity
4. Large capacity water storage device, allowing for continuous uninterrupted operation for several days with one water addition
5. The purification tube of the disposable stretching mold reduces leakage points, which is more likely to protect the reliability of the instrument.

Specification:

Item	specification
Capacity:	0-300ml/min
Outlet Pre:	0-0.4Mpa
Pressure stability:	<0.2%
Purity:	>99.999%
Tank:	3liter
Water quality requirements:	3esistivity \geq 1M Ω /cm
Power:	220v \pm 10%, 50-60Hz
Work temp:	0-40
Work humidity:	<85%
