

GASPU PSA Nitrogen Generator 1000nm³/H 99.999% Exported To Türkiye Photovoltaic Cell Factory

Our Product Introduction

for more products please visit us on nitrogengeneratorsystem.com

Basic Information

- Place of Origin: china
- Brand Name: GASPU
- Certification: ce
- Model Number: PD5N-1000

Product Specification

- Working Pressure: 8 Bars
- Production Rate: 5 - 1000 Nm³/h
- Model: PD5N-1000
- Control Power Supply: 0.2kw 220v 50Hz
- Dew Point: -50°C
- Capacity: 3-1000Nm³/h
- Product: PSA Separation Nitrogen Generator
- Feature: High Purity
- Operate: Automatic Operating
- Control System: PLC Control
- Surrounding Requirement: No Dust And Corrosive Gas, 0~40
- Field: Stainless Steel Tube, Plate Cutting
- Hs Code: 8419601100
- Movable: Yes
- Warranty: 1 Year

Product Description

GASPU PSA nitrogen generator 1000nm³/h 99.999% exported to Türkiye photovoltaic cell factory
GASPU PSA nitrogen generator has numerous customers in the global photovoltaic cell industry. More than 50 photovoltaic cell manufacturers in China use GASPU PSA nitrogen generators, with a cumulative nitrogen production capacity of over 200000 nm³/h
