

Portable and Stationary Tire Inflator Air Compressor with 120-175 PSI and 110V/220V/380V Options

Our Product Introduction

Basic Information

- Brand Name: Atlas
- Certification: ISO0001
- Model Number: AQ45VSD
- Minimum Order Quantity: 1
- Price: \$100000
- Packaging Details: In Carton
- Delivery Time: The Complete Set Of Equipment Will Be Provided Within 45 Days After Receiving The Advance Payment.
- Payment Terms: 40% Of The Contract Amount Is Prepaid; 60% Of The Contract Amount Is Paid After The Goods Are Inspected And Approved Before Shipment.

Product Specification

- Portability: Portable / Stationary
- Motor Power: 37-355kW
- Rated Power: 200kW-355kW
- Maximum Pressure: 120 PSI - 175 PSI
- Phase: Single-phase / Three-phase
- Horsepower: 1.5 HP - 30 HP
- Capacity: 392.6-2288.1 Cfm, 11.12-64.8 M3/min
- Packing: Carton, Wooden Or As Required
- Highlight: **120-175 PSI Air Compressor, 110V/220V/380V Tire Inflator, Portable Industrial Compressor**

Product Description

Tire Inflator Air Compressor

This durable and efficient air compressor takes ambient air from the surroundings and discharges it at higher pressure, designed specifically for tire inflation and various pneumatic applications. Available in 110V, 220V, and 380V configurations to suit diverse power requirements.

Product Overview

A highly reliable machine engineered for professional mechanics, fleet operators, and road-side preparedness. This compressor delivers exceptional performance for inflating tires quickly and effectively while serving broader industrial air compression needs.

Key Features

- Available in single-phase and three-phase configurations
- Multiple voltage options: 110V, 220V, and 380V
- Exhaust volume: 0.25 M³/min for steady air flow
- Cooling system options: air-cooled or water-cooled
- Portable and stationary models available
- Robust construction for demanding environments

Technical Specifications

Parameter	Specifications
Phase	Single-phase / Three-phase
Portability	Portable / Stationary
Maximum Pressure	120 PSI - 175 PSI
Voltage	110V / 220V / 380V
Cooling System	Air-cooled / Water-cooled
Capacity	392.6 - 2288.1 CFM, 11.12 - 64.8 M ³ /min
Exhaust Volume	0.25 M ³ /min
Model	4-55KW
Horsepower	1.5 HP - 30 HP
Application	Tire Inflator Air Compressor

Industrial Applications

This versatile air compressor is ideal for numerous industrial settings including manufacturing plants, automotive workshops, construction sites, and other heavy-duty environments requiring consistent and powerful air supply.

Common Uses

- Pneumatic tool operation
- Spray painting systems
- Air blowing and cleaning
- Tire inflation services
- Roadside assistance
- Industrial processes requiring clean compressed air

Customization Options

We offer flexible customization services with minimum order quantity of just 1 unit. Our air compressors can be tailored to your specific requirements with various packaging options including cartons and wooden cases.

Delivery & Payment: Complete equipment delivery within 45 days after advance payment. Payment terms: 40% prepaid, 60% payable after inspection and approval before shipment.

Manufactured in Wuxi, China with ISO certification, our Atlas air compressor products ensure top quality and reliability for all your industrial air

needs.
