Basic Information

- Brand Name: Discount Air Filters You Need
- Certification: ISO90001
- Model Number: 006
- Minimum Order Quantity: 1
- Price: \$10000
- Packaging Details: In Carton
- Delivery Time: The Complete Set Of Equipment Will Be Provided Within 45 Days After Receiving The Advance Payment.
- Payment Terms: 40% Of The Contract Amount Is Prepaid; 60% Of The Contract Amount Is Paid After The Goods Are Inspected And Approved Before Shipment.

Product Specification

- Scope Of Application: Filter
- Truck Model: Truck And Other
- Quality: High-performance
- Condition: New
- Construction: Cartridge Filter
- Size: 154*154*247
- Oe No: P111098
- Experience: More Than 15 Years
- Highlight: **American made air filter 6HH1 compatible, high dust capacity air filter 150g, engine air filter dust filtration**

Product Description:

Introducing our premium Air Filter, meticulously engineered to provide exceptional filtration performance for a wide range of truck models, including Truck and Other varieties. With over 15 years of experience in the industry, we understand the critical role that a high-quality air filter plays in maintaining engine efficiency, prolonging engine life, and ensuring optimal vehicle performance. This product is designed specifically for use with the 6HH1 engine model, offering a perfect fit and reliable filtration to meet the rigorous demands of heavy-duty trucks and other vehicles.

Our Air Filter is a brand-new product, crafted with precision and using only the finest materials to guarantee durability and superior filtration capabilities. Whether you are a fleet operator, a mechanic, or a truck owner looking to enhance your vehicle's performance, this air filter is the ideal choice. It effectively traps dust, dirt, and other contaminants, preventing them from entering the engine and causing damage. This results in improved fuel efficiency, reduced emissions, and an overall smoother running engine.

We take pride in offering all high-quality & American made air filters, ensuring that each unit meets stringent quality standards and complies with industry regulations. Our commitment to quality means you receive a product that not only performs exceptionally but also lasts longer, reducing the frequency of replacements and saving you money in the long run. The use of American manufacturing processes guarantees reliability and consistency, giving you peace of mind that your vehicle is equipped with the best possible air filtration system.

Designed for versatility, this air filter's scope of application is primarily focused on filtering air to protect your engine, but its robust construction allows it to be used in various truck and automotive settings. Whether you operate heavy-duty trucks, commercial vehicles, or other machinery requiring the 6HH1 engine model, this air filter is tailored to meet your needs. Its efficiency in capturing airborne particles contributes to maintaining the engine's optimal operating temperature and preventing premature wear and tear.

One of the key advantages of choosing our air filter is the availability of discount air filters you need without compromising on quality. We understand that maintenance costs can add up, and by providing competitively priced, high-quality filters, we help you keep your vehicles running at their best while staying within budget. Our discount air filters you need are carefully selected to ensure they meet or exceed OEM specifications, so you never have to worry about performance or compatibility issues.

In summary, this new Air Filter for Truck and Other models, specifically designed for the 6HH1 engine, represents a perfect blend of experience, quality, and value. With more than 15 years of expertise backing our products, you can trust that you are investing in a reliable and efficient solution. Our all high-quality & American made air filters stand out in the market for their durability, performance, and cost-effectiveness. Don't miss out on the opportunity to equip your vehicle with the best filtration system available and take advantage of the discount air filters you need to maintain your fleet's peak condition.

Choose our Air Filter today and experience the difference that superior filtration and American craftsmanship can make. Your engine deserves the best protection, and with our product, you are assured of nothing less. Enhance your vehicle's performance, reduce maintenance costs, and enjoy the benefits of a cleaner, more efficient engine with our trusted air filter solution.

Technical Parameters:

Article Number	479-8989, 478-8991
Material	Activated Carbon And Fiberglass
Condition	New
Dust Holding Capacity	150 Grams
Engine Model	6HH1
Part Number	AL150288
Frame	Aluminium Alloy; moistureproof; GI
Construction	Cartridge Filter
Quality	High-performance
OE No	P111098

Applications:

The Air Filter model 006 from Discount Air Filters You Need is a premium product designed to meet the diverse needs of various applications and scenarios. Manufactured in Suzhou, China, and certified with ISO90001, this air filter ensures reliability and quality in every unit. As a custom air filter manufacturer, Discount Air Filters You Need offers tailored solutions that cater to specific requirements, making it ideal for both industrial and residential use.

One of the primary application occasions for this air filter is in HVAC systems where clean air is essential for maintaining a healthy indoor environment. Its dust holding capacity of 150 grams ensures efficient filtration, prolonging the life of heating and cooling equipment while improving air quality. The compact size of 154*154*247 mm makes it suitable for use in various air purifiers, ventilation systems, and machinery that require high-performance filtration.

In industrial settings, the air filter is perfect for factories, workshops, and manufacturing plants where airborne particles and dust can compromise both product quality and worker health. The robust construction and packaging in carton boxes facilitate easy storage and transportation, while the part number AL150288 and OE number P111098 assist in seamless identification and compatibility with existing systems. With a minimum order quantity of just one unit and a competitive price of \$10,000, this air filter provides excellent value for businesses seeking to invest in durable and efficient air filtration solutions.

Moreover, the delivery time commitment of 45 days after advance payment ensures timely availability for urgent projects, and the payment terms—40% prepaid and 60% post-inspection—offer financial flexibility and assurance of product quality. Whether used in

commercial buildings, healthcare facilities, or automotive applications, these all high-quality & American made air filters from Discount Air Filters You Need provide superior performance and peace of mind.

In summary, the air filter 006 is the perfect choice for anyone looking for reliable, efficient, and cost-effective filtration solutions. Its versatility across various scenarios, combined with the expertise of a custom air filter manufacturer, makes it a standout product in the market. Trust Discount Air Filters You Need for your air filtration needs and experience the difference in air quality and system longevity.

Support and Services:

Our Air Filter product comes with dedicated technical support and comprehensive services to ensure optimal performance and customer satisfaction. If you encounter any issues or have questions regarding installation, maintenance, or operation, our support team is ready to assist you.

We provide detailed user manuals and troubleshooting guides to help you understand the product features and resolve common problems efficiently. Regular maintenance services and replacement parts are available to keep your air filter functioning at peak efficiency.

For extended support, we offer warranty services covering manufacturing defects and technical malfunctions under normal usage conditions. Our goal is to ensure your air quality solutions remain effective and reliable throughout the product lifecycle.

Please refer to the product documentation for detailed instructions on installation and maintenance procedures to maximize the lifespan and performance of your air filter.

Packing and Shipping:

Each Air Filter is carefully packaged to ensure it arrives in perfect condition. The filter is placed in a protective plastic sleeve to prevent dust and debris accumulation during transit. It is then securely boxed with cushioning materials to avoid any damage from impacts or vibrations.

Our packaging is designed to be eco-friendly, using recyclable materials wherever possible to reduce environmental impact. The box is clearly labeled with product details and handling instructions to facilitate smooth shipping and handling.

We ship our Air Filters via trusted carriers, offering tracking services to keep you informed throughout the delivery process. Depending on your location, standard and expedited shipping options are available to meet your needs.

Upon receiving your Air Filter, please inspect the package for any signs of damage. If you encounter any issues, contact our customer service team promptly for assistance.
