Basic Information

- Brand Name: Discount Air Filters You Need
- Certification: ISO90001
- Model Number: 006
- Minimum Order Quantity: 1
- Price: \$10000
- Packaging Details: In Carton
- Delivery Time: The Complete Set Of Equipment Will Be Provided Within 45 Days After Receiving The Advance Payment.
- Payment Terms: 40% Of The Contract Amount Is Prepaid; 60% Of The Contract Amount Is Paid After The Goods Are Inspected And Approved Before Shipment.

Product Specification

- Oe No: P111098
- Size: 154*154*247
- Dust Holding Capacity: 150 Grams
- Frame: Aluminium Alloy;moistureproof;GI
- Part Number: AL150288
- Construction: Cartridge Filter
- Article Number: 479-8989 478-8991
- Engine Model: 6HH1
- Highlight: Truck air filter AL150288, Diesel engine air filter, Air filtration solution 4798989

Product Description:

Introducing the AL150288 Air Filter, a premium filtration solution designed to enhance the performance and longevity of your heating and cooling system. With more than 15 years of experience in the industry, our product embodies reliability, durability, and cutting-edge technology to ensure that your environment remains clean and healthy. This air filter is specifically engineered for the 6HH1 engine model, making it an ideal choice for those seeking a perfectly compatible and efficient component.

Air filters are essential components of your heating and cooling system; they play a critical role in trapping dust, pollen, allergens, and other airborne particles that can degrade air quality and impair system efficiency. The AL150288 air filter stands out with its superior HEPA filtration grade, which guarantees exceptional filtration performance by capturing up to 99.97% of particles as small as 0.3 microns. This level of filtration not only protects your HVAC system from damage but also ensures that the air circulating in your space is clean and free from harmful contaminants.

Our commitment to quality is unwavering. The AL150288 is a new, high-quality product made in America, reflecting stringent manufacturing standards and exceptional craftsmanship. All high-quality & American made air filters like this one are designed to meet or exceed OEM specifications, ensuring seamless integration and optimal functionality within your system. By choosing our product, you benefit from a dependable air filter that maintains system performance while promoting healthier indoor air.

Beyond its technical excellence, the AL150288 air filter offers excellent value. We understand the importance of affordability without compromising quality, which is why we provide discount air filters you need to maintain your system efficiently and economically. By selecting this air filter, you invest in a cost-effective solution that reduces maintenance needs, extends the lifespan of your heating and cooling equipment, and saves you money in the long run.

Designed for easy installation and long-lasting use, the AL150288 air filter fits perfectly with the 6HH1 engine model, ensuring a snug fit and reliable operation. Whether you are replacing an old filter or upgrading your system, this product delivers consistent performance and peace of mind. Its robust construction and advanced HEPA filtration technology make it suitable for residential, commercial, and industrial applications where air quality and system efficiency are paramount.

In summary, the AL150288 Air Filter is an indispensable component for anyone seeking to maintain a clean, efficient, and healthy heating and cooling system. With over 15 years of expertise backing its design, a superior HEPA filtration grade, new condition, and compatibility with the 6HH1 engine model, this air filter exemplifies quality and reliability. Trust in all high-quality & American made air filters like the AL150288 to provide the filtration performance your system demands.

Don't compromise when it comes to the air you breathe or the efficiency of your heating and cooling system. Choose the AL150288 Air Filter and benefit from the discount air filters you need without sacrificing excellence. Experience the difference that a well-crafted, expertly designed air filter can make in your indoor air quality and equipment durability today.

Technical Parameters:

Oe No	P111098
Scope Of Application	Filter
Part Number	AL150288
Engine Model	6HH1
Construction	Cartridge Filter
Truck Model	Truck And Other
Frame	Aluminium Alloy; moistureproof; GI
Material	Activated Carbon And Fiberglass
Dust Holding Capacity	150 Grams
Quality	High-performance

Air filters are essential components of your heating and cooling system; our product is among all high-quality & American made air filters designed for durability and efficiency. This cartridge filter, made with activated carbon and fiberglass, is part of our Industrial Air Filtration products, ensuring superior dust holding capacity and moistureproof construction for optimal performance.

Applications:

The Discount Air Filters You Need brand presents the Model 006 air filter, a high-performance Industrial Air Filtration product designed to meet the demanding needs of various applications. Originating from Suzhou, China, and certified with ISO90001, this air filter guarantees quality and reliability for both commercial and industrial environments. With a dust holding capacity of 150 grams, it efficiently captures airborne particles, ensuring cleaner air and protecting your HVAC system from damage caused by dust and debris.

Air filters are essential components of your heating and cooling system, playing a critical role in maintaining indoor air quality and system efficiency. The Model 006 features a robust aluminium alloy and moistureproof GI frame, providing durability and resistance to harsh environmental conditions. This makes it ideal for use in factories, warehouses, manufacturing plants, and other industrial settings where air quality control is paramount.

Packaging details include secure carton packing to ensure safe delivery, with the complete set of equipment provided within 45 days after receiving the advance payment. The payment terms are designed to accommodate business needs, requiring 40% prepayment of the contract amount and the remaining 60% paid after inspection and approval before shipment. This flexible arrangement reflects the brand's commitment to customer satisfaction.

The air filter's part number AL150288 and article numbers 479-8989 and 478-8991 make it easy to identify and reorder. Its design supports easy installation and replacement in various air filtration systems, enhancing operational efficiency. Whether you require air

filters for large-scale industrial air filtration products or smaller commercial HVAC systems, the Model 006 from Discount Air Filters You Need offers excellent value at the price of \$10,000 per unit with a minimum order quantity of one.

In summary, this air filter is perfectly suited for industrial applications where high-performance filtration is required. It ensures longevity and optimal performance of your heating and cooling systems by reducing airborne contaminants. Choosing Discount Air Filters You Need means investing in reliable, efficient, and cost-effective air filtration solutions that protect your equipment and improve indoor air quality.

Support and Services:

Our Air Filter product is designed to provide optimal air purification for a healthier environment. For technical support, please ensure that your air filter is installed correctly according to the user manual. Regular maintenance, including timely replacement of the filter element, is essential to maintain performance and air quality.

If you experience any issues such as reduced airflow or unusual noises, check for blockages or improper installation. Refer to the troubleshooting section of the manual for common problems and solutions.

We offer comprehensive services including warranty support, replacement parts, and professional maintenance. Our team is committed to helping you maximize the lifespan and efficiency of your air filter.

For detailed product information, maintenance tips, and service guidelines, please consult the documentation provided with your air filter or visit our official website.

Packing and Shipping:

Our Air Filter is carefully packaged to ensure it arrives in perfect condition. Each filter is sealed in a protective plastic wrap and placed in a sturdy cardboard box to prevent any damage during transit.

We offer reliable shipping options with tracking to ensure your Air Filter is delivered promptly and safely. Orders are processed within 1-2 business days, and you will receive a confirmation email with tracking details once your package has shipped.

For international shipments, please allow additional time for customs clearance. We strive to provide the best packaging and shipping experience to guarantee your satisfaction with our Air Filter product.
