

Activated Carbon And Fiberglass Custom Air Filter Specializing In Truck And Other Applications Delivering Filtration Performance

Our Product Introduction

For more products please visit us on nitrogengeneratorsystem.com

Basic Information

- Brand Name: Discount Air Filters You Need
- Certification: ISO90001
- Model Number: 006
- Minimum Order Quantity: 1
- Price: \$10000
- Packaging Details: In Carton
- Delivery Time: The Complete Set Of Equipment Will Be Provided Within 45 Days After Receiving The Advance Payment.
- Payment Terms: 40% Of The Contract Amount Is Prepaid; 60% Of The Contract Amount Is Paid After The Goods Are Inspected And Approved Before Shipment.

Product Specification

- Quality: High-performance
- Oe No: P111098
- Condition: New
- Article Number: 479-8989 478-8991
- Scope Of Application: Filter
- Engine Model: 6HH1
- Frame: Aluminium Alloy;moistureproof;GI
- Truck Model: Truck And Other
- Highlight: **activated carbon truck air filter, fiberglass custom air filter, high-performance air filtration filter**

Product Description:

Introducing our premium Air Filter, a high-performance solution designed to meet the rigorous demands of industrial environments. With over 15 years of experience in designing and manufacturing Industrial Air Filtration products, we are proud to offer a product that combines superior materials and advanced filtration technology to ensure clean and efficient air quality for your operations.

Our Air Filter, identified by the Article Numbers 479-8989 and 478-8991, and Part Number AL150288, is crafted using a unique blend of activated carbon and fiberglass. This combination of materials allows for exceptional filtration capabilities, effectively capturing dust, pollutants, odors, and harmful particles from the air. Activated carbon is renowned for its ability to absorb volatile organic compounds (VOCs) and odors, while fiberglass provides a robust barrier against airborne contaminants, ensuring that the air passing through is purified to the highest standards.

Designed with industrial applications in mind, this Air Filter delivers reliable performance even in the most challenging environments. Whether you operate in manufacturing, chemical processing, food production, or any other industry requiring stringent air quality control, our filter is engineered to maintain optimal airflow while maximizing contaminant removal. This balance is crucial for protecting both your equipment and workforce, enhancing productivity, and complying with environmental regulations.

We understand that businesses often seek cost-effective solutions without compromising on quality. That's why our product is part of the discount air filters you need, offering excellent value without sacrificing efficiency or durability. By choosing our Air Filter, you gain access to a product that meets high-performance standards at a price point that supports your budgetary goals. This makes it easier to maintain regular filter replacements and ensures consistent air quality over time.

Our commitment to quality is backed by more than 15 years of expertise in the field of Industrial Air Filtration products. Throughout this time, we have honed our manufacturing processes and material selection to deliver filters that stand the test of time and provide dependable service. Customers trust our products for their long-lasting performance, ease of installation, and compatibility with a wide range of air filtration systems.

In addition to its technical capabilities, this Air Filter is designed for user convenience. Its dimensions and specifications align with common industrial standards, making it a versatile choice for many applications. Maintenance is straightforward, allowing you to replace filters quickly and minimize downtime. This ease of use, combined with its outstanding filtration efficiency, positions our Air Filter as the discount air filters you need for your business.

To summarize, the Air Filter with Article Numbers 479-8989 and 478-8991 and Part Number AL150288 represents a top-tier choice in Industrial Air Filtration products. Made from activated carbon and fiberglass, it offers high-performance filtration that effectively removes contaminants, protects your environment, and promotes healthier air quality. Supported by more than 15 years of industry experience, this filter is a trusted, cost-effective solution designed to meet your business's air filtration needs with precision and reliability.

Invest in this Air Filter today and experience the difference that quality materials, expert craftsmanship, and proven performance can make. Whether you are upgrading your current system or seeking the discount air filters you need for ongoing maintenance, our product is engineered to deliver exceptional results and lasting value.

Technical Parameters:

Frame	Aluminium Alloy; moistureproof; GI
Filtration Grade	Hepa Filter
Material	Activated Carbon And Fiberglass
Quality	High-performance
Condition	New
Article Number	479-8989 478-8991
Part Number	AL150288
Dust Holding Capacity	150 Grams
Experience	More Than 15 Years
Construction	Cartridge Filter

Applications:

The Discount Air Filters You Need brand, model number 006, is a high-performance cartridge filter designed to meet a wide range of air filtration needs. Manufactured in Suzhou, China, and certified with ISO90001, this air filter guarantees reliable quality and exceptional performance. Air filters are essential components of your heating and cooling system, ensuring clean and healthy air circulation in both residential and commercial environments.

This air filter is constructed using premium activated carbon and fiberglass materials, which enhance its ability to trap dust, pollutants, and odors effectively. Its robust construction makes it ideal for various application occasions, including industrial air filtration products, HVAC systems, manufacturing plants, and cleanroom environments. Whether you are looking to improve indoor air quality in office buildings or require efficient filtration in industrial settings, the Discount Air Filters You Need model 006 is specifically designed to meet those demands.

In industrial applications, this air filter plays a critical role in protecting sensitive equipment from airborne contaminants, thus extending machinery lifespan and reducing maintenance costs. Its unique cartridge filter design allows for easy installation and replacement, making it a practical choice for businesses that prioritize both efficiency and cost-effectiveness. With a minimum order quantity of just one unit and a price point of \$10,000, it offers a premium solution for organizations needing reliable and durable filtration products.

The packaging details include secure carton packing to ensure safe delivery, and the complete set of equipment will be provided within 45

days after receiving the advance payment. Payment terms are customer-friendly, with 40% of the contract amount prepaid and the remaining 60% paid after inspection and approval before shipment. The OE number P111098 and part number AL150288 further confirm the product's authenticity and compatibility with various systems.

In summary, the Discount Air Filters You Need model 006 is a versatile and high-performance air filtration solution suitable for multiple occasions and scenarios. Whether for improving air quality in commercial buildings, ensuring clean airflow in industrial processes, or enhancing residential HVAC systems, this filter is an essential component that delivers dependable results. Choosing this air filter means investing in durability, efficiency, and superior air filtration technology.

Support and Services:

Our Air Filter product is designed to provide efficient and reliable air purification for various environments. For optimal performance, please ensure regular maintenance by replacing the filter according to the recommended schedule.

If you experience any issues with the Air Filter, such as reduced airflow or unusual noises, please refer to the user manual for troubleshooting tips. Common solutions include checking for blockages, ensuring proper installation, and cleaning or replacing the filter element.

We offer comprehensive technical support to assist you with installation, maintenance, and troubleshooting. Our team of experts is committed to helping you maximize the lifespan and effectiveness of your Air Filter.

In addition to technical support, we provide a range of after-sales services including warranty coverage, replacement parts, and extended service plans. Please refer to your warranty documentation for detailed information on the terms and conditions.

For optimal air quality and device longevity, we recommend using only genuine replacement filters and accessories authorized by the manufacturer.

Thank you for choosing our Air Filter product. We are dedicated to ensuring your satisfaction and are here to support you every step of the way.

Packing and Shipping:

Our Air Filter product is carefully packaged to ensure it arrives in perfect condition. Each filter is sealed in a protective plastic wrap to prevent contamination and damage during transit. The wrapped filter is then placed in a sturdy, corrugated cardboard box designed to withstand shipping pressures and protect the product from external impacts.

For added safety, cushioning materials such as foam inserts or air pillows are used inside the box to minimize movement and absorb shocks. The packaging is clearly labeled with handling instructions and product details to facilitate smooth processing and delivery.

We offer reliable shipping options with tracking available for all orders. Our logistics partners ensure timely and secure delivery to your doorstep, whether you are ordering locally or internationally. Upon receiving your Air Filter, please inspect the package for any signs of damage and contact our customer service if any issues are found.
