

Durable 15 MPa High Pressure PSA Nitrogen Generator with PLC Automatic Control and Heavy Duty Skid Design

Our Product Introduction

for more products please visit us on nitrogengeneratorsystem.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: GASPU
- Certification: ISO 9001:2015, CE
- Model Number: GPN-HP15-30
- Minimum Order Quantity: 1 Set
- Price: USD 40000-150000 / Set
- Packaging Details: Export wooden case package with foam protection
- Delivery Time: 40-60 working days
- Payment Terms: T/T,L/C
- Supply Ability: 10 Sets per Month

Product Specification

- Control System: PLC Automatic
- Flow Rate: 30 Nm³/h
- Voltage: 380V 50Hz 3Phase
- Working Pressure: 0.6-15 MPa
- Max Pressure: 15 MPa
- Nitrogen Purity: 99.9%
- Highlight: **15 MPa High Pressure Output, Durable Industrial PSA Generator, Pipeline Purging Nitrogen Supply**

Product Description

Durable 15 MPa High Pressure PSA Nitrogen Generator System for Pipeline Purging

The **Durable 15 MPa High Pressure PSA Nitrogen Generator** is engineered for high pressure purging applications where reliability and endurance are critical. Built with heavy duty components and rated for 15 MPa output, this system delivers stable nitrogen supply for pipeline purging, vessel inerting and pressure testing.

15 MPa High Pressure Capability

- Rated output pressure up to 15 MPa for demanding purging tasks
- High pressure buffer system ensures stable delivery
- Suitable for pipeline, vessel and process equipment purging

Durable Heavy Duty Construction

- Reinforced pressure vessels and high grade valves
- Corrosion resistant piping for long service life
- Designed for continuous industrial operation

Safe and Reliable Operation

- PLC automatic control with pressure and purity monitoring
- Multiple safety protections including overpressure alarm
- Low maintenance with long-life carbon molecular sieves

Contact us for details on the durable 15 MPa high pressure PSA nitrogen generator for your purging applications.
