

Standard PSA Nitrogen Generator 6 Bar Pressure On-Site N2 System for Industrial Use

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: GASPU
- Certification: ISO 9001:2015, CE
- Model Number: GPN-6B-50
- Minimum Order Quantity: 1 Set
- Price: USD 28000-110000 / Set
- Packaging Details: Export wooden case package with foam protection
- Delivery Time: 30-50 working days
- Payment Terms: T/T, L/C
- Supply Ability: 15 Sets per Month

Product Specification

- Nitrogen Purity: 99.9%
- Flow Rate: 50 Nm³/h
- Output Pressure: 6 Bar
- Design: Standard Skid
- Application: Industrial Nitrogen Supply
- Working Pressure: 0.6-0.6 MPa
- Voltage: 380V 50Hz 3Phase
- Control System: PLC Automatic
- Highlight: **Standard 6 Bar PSA Generator, Industrial On-Site N2 System, 6 Bar Pressure Nitrogen Supply**

Product Description

The **Standard PSA Nitrogen Generator** operating at 6 bar pressure is a reliable on-site N2 system for general industrial nitrogen supply. Based on proven Pressure Swing Adsorption technology, this generator produces high-purity nitrogen continuously at your facility, offering a cost-effective alternative to cylinder and liquid nitrogen.

6 Bar Standard Operation

Rated output pressure of 6 bar meets common industrial requirements

Stable pressure and flow for consistent process supply

Standard design ensures easy integration with existing systems

Industrial Nitrogen Supply

Suitable for blanketing, purging, inerting and packaging

Continuous on-site generation eliminates gas delivery costs

99.9% purity covers most general industrial applications

Reliable and Economical

PLC automatic control with purity monitoring

Low energy consumption and minimal maintenance

Skid-mounted design for quick installation

Contact us for details on the standard 6 bar PSA nitrogen generator for your industrial nitrogen supply.
